Education

09/2022 – 06/2026

Bachelor of Computer Science

Cairo, Egypt

University of Shorouk Faculty of Computers and Information

Bachelor of Computer Science with focus on software engineering, web development, data structures, algorithms, and database systems. Gained strong practical experience in frontend development using React.js, Next.js, and modern web technologies. Worked on multiple academic and real-world projects including e-commerce platforms, dashboards, and web applications.

Skills

Frontend Development :

- React.js
- Next.js
- JavaScript
- TypeScript
- HTML5
- Tailwind CSS
- Material UI
- Bootstrap
- CSS3
- React Router

Backend Basics :

- Node.js
- Express.js
- REST APIs

Tools & Platforms :

- Git
- GitHub
- Postman
- Swagger

API Integration

- REST APIs
- Axios

State Management & React Hooks :

- Redux Toolkit
- Context API
- useState
- useEffect
- useContext

Profile

Frontend Developer specializing in React.js and Next.js. Skilled in building responsive and user-friendly web applications using modern JavaScript technologies. Passionate about creating clean UI, optimizing performance, and delivering great user experiences.

Projects

E-Commerce Platform

React.js | Redux Toolkit | React Router | Axios | Bootstrap | REST API | Git

- Built a fully responsive e-commerce application with modern React architecture.
- Implemented multi-level product filtering (Category → SubCategory → Brand).
- Developed product search, sorting, pagination, and wishlist features.
- Implemented shopping cart with quantity management and price calculations.
- Integrated REST APIs using Axios with loading, caching, and error handling.
- Used Redux Toolkit for scalable state management.
- Built reusable UI components and dynamic routing using React Router.
- Followed clean code principles and component-based architecture.
